NOTE #1: Prior to commencing with any exterior painting, your planned color selections must be submitted to the Lathem's Mill Board of Directors for written approval. If you are repainting your home with the exact same colors, however, you only need to state as much in a written communication to the Board.

NOTE #2: These specific color names, color numbers or collections may no longer be available but reputable paint manufacturers can supply you with compatible color samples that you can compare to the paint used on the referenced lots (this list was prepared prior to final build-out, so some lots are not listed).

NOTE #3: Do NOT assume a substituted or compatible color can be used until you have submitted a sample to the Lathem's Mill Board of Directors and have received written approval.
